1. Install App

- Search for *Libby* in your app store.

- Install the free app.
- On first run scroll through the welcome to “Find my Library” and the app will use your location to find your nearest library. If the app incorrectly identifies your library you can search for it. The important thing is that it identifies you as belonging to Merrimack Valley Library Consortium!
- Tap matching library to select!
- Enter your library card number and you are good to go!

2. Explore

- Libby has two areas, Library and Shelf. Library lets you explore titles to check out, and Shelf shows you everything you have out!

- Search for a title you wish to borrow—you can browse by subject or collection; or you can search by author, title, or keyword.
- Every search provides a summary of the results, you can narrow your search from that summary, or use Refine to sort and limit your search results.
- Tap on a book cover to learn more, and tap Borrow to check out a title. If a title is unavailable you can always Place a Hold.
- You can find all your items, including both loans and holds, under the Shelf section of the app.
- Tap Open Book to enjoy your book!

Tip: If you can't find something, Libby uses three parallel lines to indicate a menu!

3. Tips & Tricks

- All e-books and audio books in this collection can be found through our main catalog! Select “Digital Library” and type in a title or keyword search to see what we own!
- Use the Download Settings to control when your loans are downloaded—including automatically when you’re on WiFi.
- Audiobooks display a set of headphones on their book cover! 
- Not sure when a book is due? Want to return it? Or just want to see the details about it? Tap on the title on your Shelf to see!
- Have library cards for other systems? In your app menu tap Switch Library, and search for your other library like you did when setting up your app! All your loans will appear in the same place, and Switch Library lets you change which Library collection you’re viewing!
